Section I. TRANSFER REQUEST BY (PRINT NAME) McELHENY Date 7-19-01

TO: Art Unit 2163 Class/sub 705/7-11 FROM: A.U. 2862 Class 702/1-18

REASON:

Not AU 2862 or class 702/1-18 that requires sensing earth data and analysis (processing) of sensed data for determining earth parameter(s). Instead to gathering work site activities data for business logistics purposes. See especially claim 45, to a "business method". At best monitoring fishing activities in a wellbore for activity logging, not earth analysis. Nor belong in higher subs of 702 according to AU 2857 primaries for similar reasons. Since has business aspects claimed of monitoring equipment and personnel activities for billing and scheduling purposes, etc., appears to be Class 705, subs 7-11 or 32.
